Prioritize FMSD Students!

FMEA STANDS FOR

Safe and Stable Schools

Closures and Layoffs Harm Our Students:

80% of our students are from low-income families, in foster care or are English Language Learners.

1200+ students will be affected by the proposal to layoff their trusted teachers

??? students will be displaced by the proposed 5+ school closures

A study of school closures on high school students in Milwaukee Public Schools found that the closures caused negative impacts on both the GPAs and attendance of students at the closed schools.

FMSD Must Prioritize Our Students and Keep Schools Open with Stable Staffing
